

# CREATE YOUR OWN STORY

## PERSONALIZE YOUR UPHOLSTERY.

ENDLESS POSSIBILITIES.

[mikrona.com](http://mikrona.com)

MIKRONA are proud to present durable laser engraving on our leather upholstery. You can add your logo, lettering or even a motto to create a unique and timeless chair. The possibilities are endless!

The engraving can be done vertically or horizontally on the backrest of your Orthora 200. Our personalisation team use traditional hot presses to engrave the leather while keeping the surface of the leather intact and uniform. Please note that the colors may differ from the images.

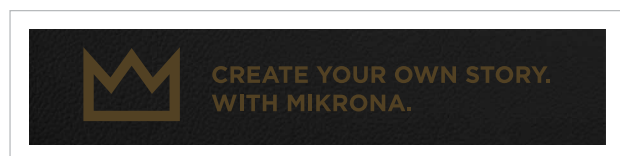

Laser engraving is permanent and resistant to wear & tear. Your engraving does not require any special care nor does it compromise the durability or hygiene of the upholstery.

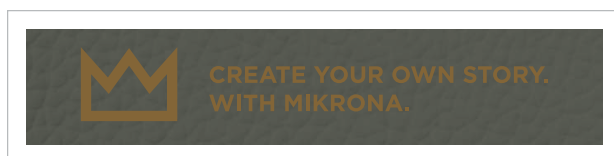

**horizontal (320.0232.01)**  
140 x 70 mm
