

# TOPDENT CROWNMASTER

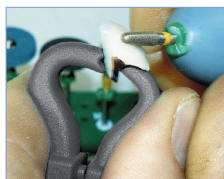

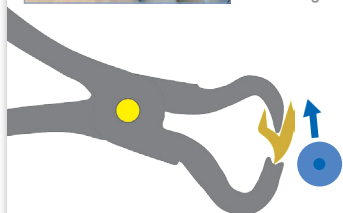

Der sichere Griff zur Krone, der sichere Schutz Ihrer Hand!  
The crown holder, prevents accidental injury!

Diaduran®: der biegefeste, hochhitzebeständige Kohlefaserwerkstoff, temperaturbeständig bis 150°C  
Diaduran®: the bend resistant, heat resistend fibre-glass plier, heat resistant up to 150°C

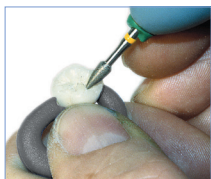

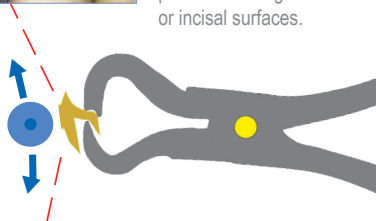

Sicheres Beschleifen,  
Finieren und Polieren der  
Zervikalränder.

For the exact smeething,  
finishing and polishing of  
the margins.

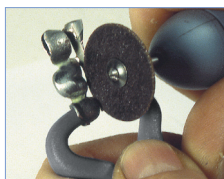

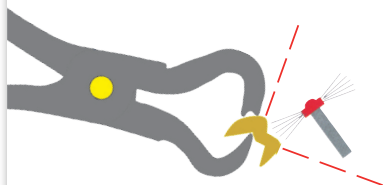

Exaktes Strukturieren  
und Bearbeiten von  
Labial- und Inzisalfächen  
bei Einzelkronen.

Use this hold for the  
precise finishing of labial  
or incisal surfaces.

Freie Bearbeitung der  
gesamten Okklusalfäche  
bei seitlicher, bukkaler  
Fixierung.

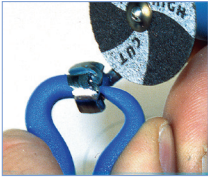

Makes it possible to work  
on the entire occlusal  
surface.

Leichte Inlaybearbeitung  
durch sicheres Fixieren.

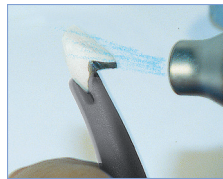

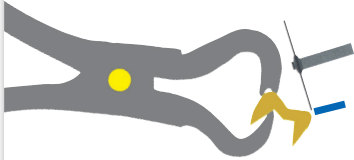

Easy positioning of  
inlays.

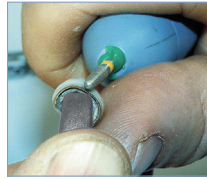

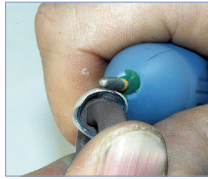

Sicherheit beim Abtrennen und Beschleifen von Gußkanälen.

The ideal tool for holding bridges or crowns while separating sprilles with a disc.

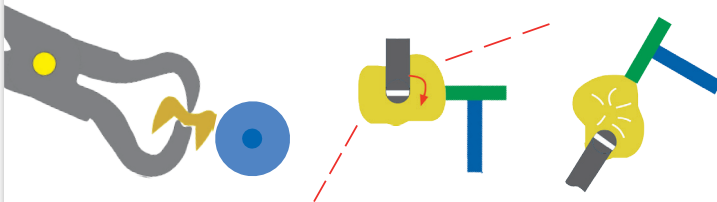

Einfaches Strukturieren, Abdampfen und Polieren von Einzelkronen in der Klemmvorrichtung am Griffende.

The groove in the handle of the plier makes it possible to work on a single crown. Place crown in the groove provided for finishing, dust off, polish.

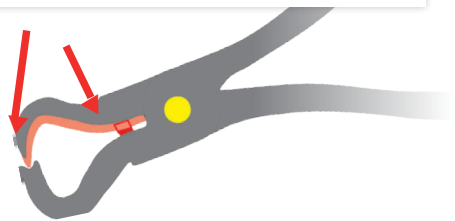

Bearbeitung des gegenüberliegenden Arbeitsfeldes einfach Krone im Halter drehen. Erleichtert das Beschleifen und saubere Polieren der Zervikalränder für Molaren.

Work on the entire crowns by simply turning the plier. Provides relative ease for smoothing and polishing the margins of molar crown.

Bei Abnutzung der Arbeitsenden Distanz-Stift abfräsen  
For a tighter fit, simply reduce the size of the knob.
